About the Artwork: Kiaayo (key-eye-yo) pays tribute to my Blackfeet (Amsskaapiikuni) heritage and is the Blackfeet translation meaning bear. Blackfeet tradition tells the story of a missing child who was found and raised by a bear. The bear was wise, imparting lessons of strength and fearlessness. Winter had passed, and the child grew into a young man. Using the knowledge that the bear had imparted; the young man overcame opposition and later became a great chief. The artwork for the Kiaayo features the wise and nurturing bear walking amongst the Glacier Mountain terrain of the Blackfeet Nation.
